## SCHOOL ASSEMBLY

*The significance of an assembly is that, it is the first place where the students learn discipline, overcome their stage fright and develop communication skills. In our school, every Monday we have an assembly in which students from different classes take responsibility in the assembly activity.*

*There is no end to education. It is not that you read a book, pass an examination, and finish with education. The whole of life, from the moment you are born to the moment you die, is a process of learning.*

*Our **Adhyayana** way of life will actively encourage moral conduct and understanding on one hand and a sense of fun and enjoyment on the other. The Adhyayana will be a happy, safe, caring and learning community where all students will be treated as individuals and where they will experience a degree of personal freedom along with the obligations that freedom confers. We at Adhyayana are always connected with activities and events.*

**GO GREEN**

*We taught students the importance of planting trees and its effects on the ecosystem. We must start an initiative for the wellbeing of our upcoming generation.*
